The Coroner over in Brown county, O., resides at Coring and because he does not get to do much work, or because he is cheated out of it by other officials he is mad. Here is the way he comes out in a "warning" card in *The Ripley Bee*:
Coroner John Fritz says he is getting tired of being cheated out of his just dues, and he warns all Justices of the Peace to be careful hereafter when they take charge of a case that he is entitled to. He says he will cheerfully go any distance at a minute's notice, and he will see the Commissioners if he hears of any more of these kind of things. He has been cheated by the people of the county as their Coroner and is willing to attend to all duties connected with said office.

This is the last day to get in your advertisement for the grand Easter edition of *THE LEDGER*.

A PICTURE FAIR, offering an enlargement of photos for fifty cents, is on his way up the river and may be expected here in the near future. You give him your order and fifty cents and get a receipt and promise.

The Bridge Bill has been set for argument in the United States Supreme Court on the 23d of April. This is the Globe Bill case which seeks to regulate the tolls on the Cincinnati Suspension Bridge, and on its decision the various turnpike companies have a hope that the Legislature cannot control the toll rates on their roads.

SACRED GROUND.

Uncle Sam Purchases and Will Preserve Washington's Birthplace.

Congress has appropriated \$30,000 with which to purchase and improve the Wakefield Plantation on the Potomac river in Westmoreland county, Va. Here stands the birthplace of an ancient four room house and on this spot, in the year 1732, and on a day which was then the 11th of February, George Washington was born.

Washington himself abandoned this plantation for Mount Vernon, and seems in his life to have had no great regard for it, though here he spent his early days, and here his father, his grandfather and his great grandfather lived.

If the cherry tree which was the subject of the familiar legend about the boy Washington and his hatchet ever stood anywhere, it stood here.

The old Washington family burial-ground on this place is sadly neglected, and the whole plantation is said to be unattractive. But if the consent of the state of Virginia is definitely obtained—for the National Government cannot acquire land in Virginia without the consent of the Legislature of that state—the whole plantation of 5,000 acres will become a National park, and will be beautified by landscape architects in harmony with its natural characteristics and in sympathy with its history.

This purchase is a noteworthy step in the movement, of which we have heretofore given some account, to make public property of beautiful and historic sites, wherever they may be.

New Jersey has obtained in the same way the beautiful estate at Morristown, which was once Washington's headquarters, and Pennsylvania has acquired Valley Forge, made memorable as the scene of his sufferings and humiliations.

It is pleasant to see the places associated with the memory of the Father of our Country treated as sacred ground, and there are many other spots, beautiful or famous for other reasons, which should be guarded by public action from defacement.

Look at This Trip.

The Henry M. Stanley went into Cincinnati on his last trip Tuesday with the following amount of freight on board: 78 hogsheads of tobacco, 40 barrels of coal, 100 packages of cotton yarn, 750 kegs, 60 hard tins, 190 bundles of flat hoops, 140 packages of washboards, 85 coops of poultry, 165 cases of eggs, 12,000 hoop poles, 3,000 feet of hickory lumber, 82 head of stock, large lot of household goods and 100 passengers.

Peculiar Charity Seekers.

A grand free exhibition by three natives of South Africa was given in the Police Courtroom yesterday afternoon.

Two of them, dressed in their native costumes, gave a short parade through the public streets, and their cries and warwhoops attracted quite a large crowd to the scene of exhibition.

From their story it seems they have been features at the World's Fair until it closed, since which time they have been doing acts in the museums throughout the country. They were brought to Mayville by a Professor Mack, who skipped out and left them here without any money.

Since Tuesday they have been trying to get enough to get out of the city, and falling in this they applied to Mayor Cox for a charity pass to St. Louis.

This Mayor Cox refused, but he did a very generous act in furnishing two of them tickets to Cincinnati and the other one a pass to Portsmouth.

At the Police Court they gave an exhibition of their native dance and songs, sword swallowing, etc.

A collection of about \$3 was taken up, and the poor unfortunates went their way.

HOLLA HART may think he now has the Congressional nomination in a sling; still he may find it a HART road to travel.

"The total of appropriations of the present session of Congress will exceed by a few millions the appropriations of the first session of the last Congress," is the way a Democratic contemporary puts it. Oh, well, "a few millions" one way or the other is a small matter, and Democratic financiers never bother about little things like that—unless they are trying to construct a mountain from some Republican molehill.

A DOCUMENT signed by over fifty of the most prominent bankers in Boston has been forwarded to President CLEVELAND urging upon him the necessity of refusing to sign the Seigniorage Bill, and stating that it will ruin the banking business and create distrust and in a measure ruin the financial standing of the country. But the protest will have about as much effect as pouring water on a duck's back. GROVER started out to ruin the country and seems bent on completing the job.

THE appointment of Major ADAMS to be Pension Agent for Kentucky shows again that the President's big brain is capable of studying and understanding the situation in any or all of the States, while the statements of such common wealth have only one forty-fourth as much to think about.—Frankfort Capital.

Yes; so; but his Excellency seems to have overlooked the fact that Northeastern Kentucky presented the name of a gentleman who, for true Democracy and all the qualifications necessary for the position, hasn't peer in the state. Colonel JAY H. NORTUP was a gallant soldier, and possessed the additional recommendation of not being an office-seeker as the term goes. He would have honored the Administration and the state. But it's all over now.

THE Democrats, now in full control of both branches of Congress and the White House, are denouncing the Civil Service Commission and the Civil Service Law as un-American. This is enough to make GEORGE H. PENDLETON's Democratic bones rattle in his coffin, for he was the father of the fraud. And what of our own JOHNNIE PROCTOR, who by the grace of GROVER and his own Bourbonism, is President of the Commission? Verily, the Civil Service humbug ought to go, and the party that inflicted this and every other fraud on the people is the party to abolish it. It was passed for the purpose of putting Democrats into office, and it ought now to be repealed in order to get them out of office—three years hence.

THE hard times of the past year will be greatly increased by the passage of the infamous Wilson Bill. Every possible effort should be made to defeat the measure—to delay it in any event. We can better afford a few months of uncertainty than four years of general adversity, suffering and distress. Under the most favorable circumstances, the Wilson Bill, if it becomes a law, cannot be changed until the summer of 1897. We earnestly recommend that you will urge United States Senators, irrespective of party, to defeat or by every parliamentary method delay the passage of this measure.

On November 5th the people will have an opportunity to speak their verdict and be availed.

The Kind of

medicine you need is the old reliable tonic and blood-purifier,

AYER'S SARSAPARILLA

It can have no substitute. Cures others, will cure you

INDICATIONS now are that the President will sign the Seigniorage Bill or permit it to become a law by ignoring it. This will result in England unloading the remainder of her American securities upon us, and immediately commence to withdraw gold. America should be importing instead of exporting gold, for the trade balance is over \$100,000,000 in our favor. Prospective disastrous legislation is the cause of the reversal of affairs.

REPRESENTATIVE LAWSON has introduced a bill in the New York Legislature which provides that none but the American flag shall fly from any public building in that state. The only exception is in the case of the visitation of any representative of a foreign Nation to this country. Then and then only may the flag of that particular Nation be hung to the breeze. This is in the line of patriotism and good sense. If the Stars and Stripes aren't good enough for our foreign friends they ought to go whence they came—and stay there.

AN OPENING FOR CUCKOO HERMIEBEN.
Washington Post.—The income tax is still a war measure. It would require a small army of one-hundred thousand to enforce it.

TERSE AND TRUE.
Boston Journal.—The Wilson Bill in its present form is a mass of inconsistencies, streaked with jobbery and favoritism and incorporating a multitude of private and sectional revenge.

NO EXPECTATION COULD BEAT IT.
St. Louis Globe.—Senator Palmer says that his experience has taught him that things rarely turn out to be as bad as they are expected to be; but he should qualify the statement by excepting the Democratic party.

KENTUCKY WANTS SPOILS.
New York Press.—The Civil Service Commission complains that Secretary Carlisle openly violates the Civil Service Law. What kind of politics does that body imagine that the Bluegrass country grows?

A GLORIOUS VICTORY AHEAD.
St. Louis Globe Democrat.—It is not necessary for the Republicans to waste their energy in trying to capture any Southern state. They are sure to carry every Northern state in 1896, and that is all they need to insure them a glorious victory.

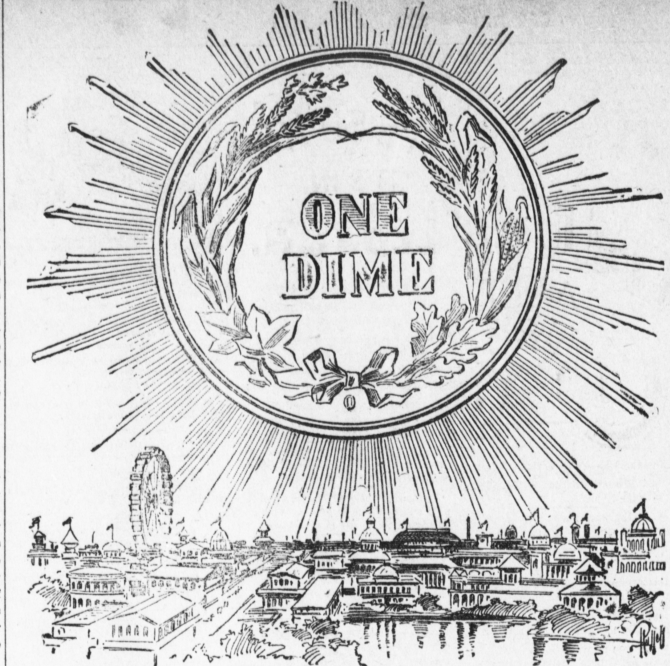

IN A NUTSHELL.
Indianapolis Journal.—The great fact in tariff discussion not to be forgotten is that every dollar's worth of goods now manufactured here which will be transformed by the Wilson Bill to Europe means that, from first to last, 35 cents paid to labor will be transformed to foreign competitors.

ANOTHER RECORD BROKEN.
Springfield Republican, (Mug.)—Justice White may be said to be the only man ever appointed to the Supreme Bench who managed to show his unfitness for the place between the time of receiving his commission and being sworn in. This sugar tariff business seems to be selling a good many reputations just at present.

NASHVILLE, TENN., March 26, 1893.—The Stockton Medicine Co., Nashville, Tenn.—Gentlemen: I give you exceeding pleasure to speak of your Antiseptic, as I consider it essential to the way of medicine. My old servant Albert, who is 72 years old, was very sick with heart trouble, and I called in my family physician and gave him every attention, but the doctor finally told me there was no hope, and the only thing that could be done was to make him comfortable until the end. At this point I decided to give him Stockton's Antiseptic, as it seemed to be performing almost miracles for others. It was given in three doses every three hours and the fever began to decrease from the first dose, and a decided improvement was noticed the first day. In three days he was sitting up and in a week he was back at his work as usual, and is regaining his strength very fast. I conscientiously believe it saved my old man's life. Respectfully yours, FRANK SEASACRET, No. 5 West Hick.

It must be a good article that will induce a man to go forty miles to get it. Dr. R. Sweetman of Fairfax Station, says a party came forty miles to his store for Chamberlain's Cough Remedy and bought a dozen bottles. "The remedy is a great favorite in this vicinity," he says, "and has performed some wonderful cures here." It is indicated especially for coughs, colds, croup and whooping cough. For sale by Theo. C. Power, Drugist.

"The people of this vicinity insist on having Chamberlain's Cough Remedy and do not want any other," says John V. Bishop, of Portland Mills, Indiana. That is right. They know it to be superior to any other for colds, and as a preventive and cure for croup, and why should they not insist on having it. 50 cent bottles for sale for sale by Theo. C. Power, Drugist.

THREE days is a very short time in which to cure a bad case of rheumatism; but it can be done, if the proper treatment is adopted, as will be seen by the following from James Lambert, of New Brunswick, Ill.: "I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm and used it. It cured me in three days. I am all right today and would insist on every one who is afflicted with that terrible disease to use Chamberlain's Pain Balm and get well at once." 50 cent bottles for sale by Theo. C. Power, Drugist.
